A despatch from Washington remarks that rumors are affect there if the scovery of more full buster movements in this city, the or supe-ments of which promise to turn out in the N. Y. Herald.

We are almost wicked enough to hope that a all shutter movement is on foot in N w 1 sk or somewhere else. We have a deal of cur only to see what President Pierce will do it a mixement of fillibus ers be brought to his infice. We want to see whether, after appoint g to ofce the leaders and advocates of the two former nl bustering expeditions, he will un ertake to forcement of the severe penalties of the law.

If the filib e ers are not get ag p a coemplaing a new expeds ion, we beg hem to to what they are waiting for. They prolesse to think that the Whig admit is ratio, in a. . . ing or undertaking to airest the former exupon human rights. They all supported Picrce 1 'M. summer Nights' Dreem," Herfor the Presidency, assuming that he would never perpetrate any such enormity. And it they are really of opinion, that, among the rights of American citizens, is the right of allihasterm, wly in the name of saltpetre don't hev en the rarmed presence in Cuba just as imperative.

In New York last spring we had the curiosity to ask a very prominent Democrat, the most in-the corrector has revident discless a great deal te ligert and influential of all the leaders in the cause of fillibusterism, what he thought the filsbust-rs would do after the manguration of

And must be not think it a great pi y that the office-reckers are not as anxious to avoid annoying him as the fillibusters are represented to be?

It seems certain that the notorious Wm. Brown of Indiana, who recently retarned om Washington, has received from the adminstration the provise of the special mail agency or the district of Indiana, the best office in that base man. He was despised and laughed at from one end of the Union to the other. What right has a President of the United States to
